Reviews on a wide range of topics dealing with the utilization of plants by people. Economic Botany specializes in scientific articles that address the botany, history, evolution, and changing cultural/biological status of useful plants, their modes of use, and their cultural significance.

~~The Society for Economic Botany~~

Economic Botany is a quarterly journal published by The New York Botanical Garden for the Society for Economic Botany. Interdisciplinary in scope, Economic Botany bridges the gap between pure and applied botany by focusing on the uses of plants by people. The foremost publication of its kind in this field, Economic Botany documents the rich relationship between plants and people around the world, encompassing the past, present, and potential uses of plants. Each issue contains original ...

interaction of people with plants.

Economic botany is closely related to the field of ethnobotany that word is based on two Greek roots: ethnos (race: people: cultural group) and botanikos (of herbs) and can mean the plant lore of a race or people as well as the study of that lore.

About The Society for Economic Botany. The Society for Economic Botany (SEB) is about people exploring the uses of, and our relationship with plants, cultures and our environment—plants and human affairs. You might well call our research and educational efforts, the science of survival. We were established in 1959 and our mission is to foster and encourage scientific research, education, and related activities on the past, present, and future uses of plants, and the relationship between ...
