Service Engine Soon Light Meaning. If the 'Service Engine Soon' light comes on, it means that there is a minor problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement. Some manufacturers only have one indicator for both scheduled service and engine problems.

Diagnostic Trouble Codes Chart | Check Engine Light ...

The "service engine soon" warning lights up on your car dashboard to alert you to a problem with your car. You or your mechanic can use a specialized computer scanner or code reader to diagnose the issue. Generally, if the light stays lit for at least several minutes at a time, this means you need to schedule a checkup for your car.

What Does Service Engine Soon Mean? | It Still Runs

by Paul Novak. Car dashboard image by Andrejs Pijass from Fotolia.com. Modern automobiles use onboard computers keep track of how individual parts of an engine are performing, storing this data as error codes when problems are found. The service engine soon light will come on when the computer determines that maintenance or service is required. If it does not turn off after servicing or repair, it may need to be reset to clear the error code.

How to Reset a Service Engine Soon Light | It Still Runs

If your "Service Engine Soon" light has come on in your Pontiac Montana, it means that one of the sensors that monitors myriad functions of your engine, transmission, or exhaust system has recorded a parameter outside of the values that GM considers normal operation. When this occurs, your Powertrain Control Module (PCM) will throw a code-- technically a diagnostic trouble code (DTC)--and activate your Service Engine Soon light to notify you to have your vehicle diagnosed.
