Why does capital formation often fail to occur in developing countries? Capital and Collusion explores the political incentives that either foster growth or steal nations' growth prospects. Hilton Root examines the frontier between risk and uncertainty, analyzing the forces driving development in both developed and undeveloped regions. In the former, he argues, institutions reduce everyday economic risks to levels low enough to make people receptive to opportunities for profit, stimulating developments in technology and science. Not so in developing countries. There, institutions that specialize in sharing risk are scarce. Money hides under mattresses and in teapots, creating a gap between a poor nation's savings and its investment. As a consequence, the developing world faces a growing disconnect between the value of its resources and the availability of finance. What are the remedies for eliminating this disparity? Root shows us how to close the growing wealth gap among nations by building institutions that convert uncertainty into risk. Comparing China to India, Latin America to East Asia, and contemporary to historical cases, he offers lessons that can help the World Bank and the International Monetary Fund to tackle the political incentives that are the source of poor governance in developing nations.

Martin Heidegger's work is pivotal in the history of modern European philosophy. The New Heidegger presents a comprehensive and stimulating overview of, and introduction to, the work of one of the most influential and controversial philosophers of our time. Heidegger has had an extraordinary impact on contemporary philosophical and extra-philosophical life: on deconstruction, hermeneutics, ontology, technology and techno-science, art and architecture, politics, psychotherapy, and ecology. The New Heidegger takes a thematic approach to Heidegger's work, covering not only the seminal Being and Time, but also Heidegger's lesser known works. Lively, clear and succinct, the book requires no prior knowledge of Heidegger and is an essential resource for anyone studying or teaching the work of this major modern philosopher.

Beautiful. Willful. Charming. Blunt. Grace Coddington's extraordinary talent and fierce dedication to her work as creative director of Vogue have made her an international icon. Known through much of her career only to those behind the scenes, she might have remained fashion's best-kept secret were it not for The September Issue, the acclaimed 2009 documentary that turned publicity-averse Grace into a sudden, reluctant celebrity. Grace's palpable engagement with her work brought a rare insight into the passion that produces many of the magazine's most memorable shoots. With the witty, forthright voice that has endeared her to her colleagues and peers for more than forty years, Grace now creatively directs the reader through the storied narrative of her life so far. Evoking the time when models had to tote their own bags and props to shoots, Grace describes her early career as a model, working with such world-class photographers as David Bailey and Norman Parkinson, before she stepped behind the camera to become a fashion editor at British Vogue in the late 1960s. Here she began creating the fantasy "travelogues" that would become her trademark. In 1988 she joined American Vogue, where her breathtakingly romantic and imaginative fashion features, a sampling of which appear in this book, have become instant classics. Delightfully underscored by Grace's pen-and-ink illustrations, Grace will introduce readers to the colorful designers, hairstylists, makeup artists, photographers, models, and celebrities with whom Grace has created her signature images. Grace reveals her private world with equal candor—the car accident that almost derailed her modeling career, her two marriages, the untimely death of her sister, Rosemary, her friendship with Harper's Bazaar editor-in-chief Liz Tilberis, and her thirty-year romance with Didier Malige. Finally, Grace describes her abiding relationship with Anna Wintour, and the evolving mastery by which she has come to define the height of fashion. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES "If Wintour is the Pope . . . Coddington is Michelangelo, trying to paint a fresh version of the Sistine Chapel twelve times a year."—Time

He was wise, strong, and brave. His destiny was to be king. She was young, beautiful, a warrior princess. Her destiny was to love him. But when first they met, it was not as princess and king -- it was as man and woman only, consumed by a passion so sudden, so deep that the very world exploded with one kiss. Only later, with his touch still burning on her lips, did Jura discover that the knight of her secret tryst had been none other than the hated Prince Rowan! Rowan, who had returned from far-away England to usurp her brother's throne...Rowan, who vowed to unite the wild clans under his rule. Furious, Jura swore her enmity to the golden-haired prince whose glorious visage tormented her days and haunted her nights. But nothing would stop Rowan from ruling over the warring tribes...and nothing would stop him from winning the fierce and lovely Jura as his bride, his Queen, his love....

A novel of desperate political intrigue and spiritual power, People of the Thunder once again demonstrates the New York Times and USA Today bestselling authors W. Michael Gear and Kathleen O'Neal Gear's mastery of American prehistory. By 1300 AD, the Sky Hand people had crushed and enslaved the Albaamaha people and built their high-walled capital, Split Sky City, to dominate towns up and down the Black Warrior River. But a violent wind is brewing that may topple the city's mighty walls. Great armies are on the march, and a cunning new leader, Smoke Shield, has risen. He will lead the Sky Hand people either to stunning triumph or to bloody doom. Old White, Trader, and the mystical Two Petals are journeying across the Choctaw lands straight into the chaos. Old White, the Seeker, must play a delicate game of espionage. For Trader the slightest indiscretion--let alone the temptation of forbidden love--could lead to disaster. Two Petals, the Contrary, faces the toughest choice of all : She must betray herself and her friends to Smoke Shield or live forever in the backward grip of madness. And Spirit Power has laid a far deadlier trap for them in the rainbow colors just beneath the rolling surface of the Black Warrior River. Explore the ancestral heritage of the Chickasaw, Choctaw, Creek and Yuchi peoples as the majesty and genius of the vanished Mississippian mound builders' civilization comes to life.
